

In the Claims:

1-26. Cancelled

27. (New) A platform deck or flat rack container, with capture and handling fittings, disposed at different spans.
28. (New) A flat rack of Claim 27, wherein the capture and handling fittings are grouped by different span standards.
29. (New) A flat rack of Claim 27, with respective support posts, and attendant capture and handling fittings, at different spans.
30. (New) A flat rack of Claim 27, with multiple support posts, grouped together in a post module at or adjacent deck ends.
31. (New) A flat rack of Claim 27, with independently folding support post groups.
32. (New) A flat rack of Claim 27, with capture and handling fittings at both 40ft and 45ft span, for conformity with dual

handling standards.

33. (New) A flat rack of Claim 27, with support posts at opposite sides pivot mounted for inward transverse fold, to overlie one another upon a platform deck.
34. (New) {Different height post pivots} A flat rack of Claim 33, with support post pivots at different heights, to allow mutual collapse fold overlay.
35. (New) A flat rack of Claim 27, with paired telescopic support posts, operable by joint ram and cable drive, with respective capture and handling fittings at different standard spans.
36. (New) A flat rack of Claim 27, with a movable deck, carried at or adjacent each corner by paired adjustable span support posts with respective capture and handling fittings at different spans.
37. (New) A flat rack of Claim 36, with on-board hydraulic rams,

and cable pulley drive coupling, for support post extension and suspended deck movement.

38. (New) A flat rack of Claim 27, with a movable upper deck, carried by support posts surmounting a base deck.
39. (New) A flat rack of Claim 27, with a tapered deck end profile to create end ramps for a vehicle cargo to allow vehicle tilt for compact fit within flat rack deck confines.
40. (New) A flat rack of Claim 27, with a hinged trap door in a deck floor intermediate deck ends to allow local tilt of a vehicle cargo disposed with wheels thereupon.
41. (New) A flat rack of Claim 27, with multiple capture and handling fittings, carried by individual support posts.
42. (New) A flat rack of Claim 29, with a support post extension ram disposed within post confines.
43. (New) A flat rack of Claim 29, with a cable suspension

disposed within support post confines.

44. (New) A flat rack of Claim 27, with dual inter-fitting decks carried between adjustable span support posts pivotally mounted for inward transverse fold to allow a compact overall collapse fold with support posts within mutually inset decks.
45. (New) A flat rack of Claim 27, with selectively operable collapse fold interlock, between inward folded support posts, gate carried thereby, and underlying deck.
46. (New) A flat rack of Claim 38, with movable deck over-travel facility and lock, to facilitate under deck loading.
